GRAPHALLOY® STAINLESS STEEL CAM FOLLOWERS

GRAPHALLOY announces self lubricating **STAINLESS STEEL** cam followers with temperature capabilities ranging from -400° F to +750° F and more!

GRAPHALLOY extreme environment cam followers are now available in STAINLESS STEEL sizes. Now those tough cam follower problems, with corrosion or wash down requirements, can be solved with the GRAPHALLOY solution.

If you have problems with:

- Temperatures to 750° F and more
- FDA approved grades available
- Wet or submerged applications
- Caustic or acidic conditions
- Areas that are difficult to lubricate
- Temperatures approaching -400° F
- Applications where grease hardens or burns up

GRAPHALLOY Stainless Steel Cam Followers can be the solution!

Common available sizes: Inch dimension only (Yoke Style also available)

SIZE	ROLLER OD	ROLLER LENGTH	STUD OD	STUD LENGTH	THREAD
1217SS-12	.75"	.5"	.375"	.875"	3/8-24
