**solutions industrielles pour
frottements et glissements**

ENQUIRY SHEET (version 1.9)

PROJECT N° :

Address details

Company name :

Your name : title/Job Function :

Address :

Postal Code :

City :

Country :

Telephone :

Fax. :

E-mail address :

Equipment

Type :

Manufacturer :

Existing or new design :

Bearing now used :

What is the actual problem :

In contact with what medium :

material clean / dirty / abrasive / other :

environment surrounding bushing :

Operating Conditions

Work temperature

°C max.temp.

°C min.temp.

°C

Radial load

kgs / N/mm²

Axial or thrust load

kgs / N/mm²

speed

rpm

speed min.-max.

-

rpm

Linear speed

cm/minute

Reciprocating :

yes / no

Oscillating :

yes / no

Duty continuous :

yes / no

Duty intermittent :

yes / no

Quantity of working hours per day

, and the frequency 365 days a year

Immersed :

yes / no

Radiation (nuclear) :

yes / no

In contact with food :

yes / no

contact direct or very close

Actually lubricated :

yes / no

You wish a solution without lubrication ?

yes / no

Environment surrounding bushing :

Contaminates :

yes / no

if yes, by what :

Abrasives :

yes / no

if yes, type/concentration :

Shaft and housing

Shaft diameter

mm, tolerance :

shaft material :

Finish :

Ra

Hardness

brinell

position of the shaft : horizontal / vertical

part which rotates : shaft / bushing

Housing ID :

mm, tolerance :

Material :

Length

mm tolerance :

Quantity and timing

Bushings per machine (per size) :

Quantities to quote (per size) :

Quotation needed by :

Shipment needed by :

Remarks :

Please add drawings, sketches and photos of the application, if available
